"GOOD NEWS"

The Adult Education Service of Macdonald College has received a grant from the Carnegie Corporation to set up an Information Centre for Community Programmes.

This news is of wonderful importance to Your Association as it means that we shall have a reservoir of material for our various programmes which will in itself just about guarantee their success.

Actually the College has not decided upon specific application of the grant, but it was tentatively decided that the information centre should contain films, books, and pamphlets, study outlines, prints for art appreciation, posters and recordings. Portable displays with selected books and pamphlets may also be provided.

Furthermore it was proposed to render direct assistance to programme planners by issuing periodical lists of materials available with special emphasis on subjects of interest to groups such as Our Association and we may also be able to obtain a speaker on any given subject as the Centre hopes to compile a roster of speakers within the service area who will be willing to lecture on a wide variety of subjects.

All in all it seems that we have access to a fund of acknowledge and entertainment which will make the coming winter seem all too short.

H. E. Pennefather, Vice-Chairman.

COMMITTEE OF PUBLIC SERVICES

A dry basement always is a valuable part of a dwelling. However, in Baie d'Urfee it is often not easy to be certain of a dry basement when a new house is being built. The reason is that during the wet seasons of the year water in the ground rises to levels higher than those of basement floors. It is very difficult and expensive to construct basement walls and floors which will keep water out.

A much more certain method of securing dry basements is to lay drain tile around the building and to continue this drain to an outlet. The difficulty here - and particularly in College Green - is that there are no outlets.

The solution is to install underdrains on each side of the street. Such drains should be of open joint field tile so that they will collect water from under roadways. In this way they will prevent frost damage to pavements and do much to reduce road maintenance costs. Such drainage is basic to good house construction and should be installed.

This drainage should not be confused with sewer drainage for which much more expensive pipes with sealed joints are necessary.

L.G. Heimpel, Public Services.

THE RECORD

On September 12th, Your Association held its monthly meeting with a good turnout despite the poor weather, the following was discussed and entered in the minutes:

Miss F. Kruse submitted her resignation as Chairman of the School Affairs Committee, but will remain on the Committee; Mrs. F.W. Case accepted the Chairmanship.

Mrs. F. W. Case informed us that the Home & School idea had been very well received by Mr. Davies, Principal of Macdonald School and it was decided that a questionnaire be sent out to all parents concerned so that a meeting could be arranged.

The Association made an urgent request to the Bell Telephone for services to those located on Station and Lakeview Rds., and were advised by mail that the present lines from Ste. Annes to Baie d'Urfee were over taxed and until more lines are available they have placed a Public Telephone Booth at the Town Hall to help the situation.

Mrs. P. Holliday was nominated Chairman of the newly formed Hospitality Committee.

The possibility of purchasing a snow plow that can be converted to a fire truck is being investigated.

The Public Service Committee is undertaking the task of drawing up a plan for Zoning the Township to be submitted at a future date to the Association for approval and then to the Council.

Matters being further investigated to be submitted to the next meeting are: The Honour Roll; the School Bus Route; the Macdonald Powerhouse smoke nuisance; a Community Fast Freeze Locker; improved lighting for the streets, the C.P.R. station's unsatisfactory lights; and better swimming facilities at the Town Hall.

EDITOR.

CHILDRENS' FILMS for Entertainment and Educational purposes every second Saturday at 2:30p.m. commencing October 11th at the Town Hall is practically a reality.

Your Committee has unearthed the following information for your approval:
FILMS nominal charge and free - Adult Education Service, Macdonald College, Que.
City of Montreal Film Library (affiliated with National Film Board).

Associated Screen News Arrow Film Corp.

Private sources (Members have already offered Films.)

YOU are requested to help supply us with Film Material.

PROJECTORS - Sound and Silent for nominal charges and gratis:

Adult Education Service, Macdonald College - - - Y.M.S. Board of Trade.

Reg. Vidler - Bob McBride - Sid Nagley.

YOU are again invited to help with additional sources:

OPERATORS all free of charge -

Bob McBride, Reg. Vidler, Ernie DeWitt, Peter Smith, Sid Nagley & D.G. Comber

YOU too can help and we will teach you in ONE easy lesson.

SUPERVISORS - Here we are stuck for the moment, but any Lady in the Town can help by joining our committee (phone Ernie DeWitt - 2331 - today) if you want to make this venture a success.

--- SUMMARY ---

It has been suggested that this be put on a self sustaining basis, if so a moderate charge of 10¢ per youngster will be collected each showing. Transportation will be arranged if found necessary. We will request an operating fund of \$10.00 to commence operations, at the next meeting, October 10th.

This is YOUR project for YOUR CHILDREN, we need your support, materially, mentally and physically. We will call upon YOU to DIG IN and help us by attending the next meeting where we expect to hear from you so that this may become a REAL permanent benefit to OUR COMMUNITY. Should you require further information prior to the meeting, please phone - Ernie DeWitt - 2331. Thank you.
